STRATEGIC SIMULATION HORIZONS (ADAPTING STRATEGY OVER TIME)

YEAR 1 Controlled Launch & Learning

- Controlled market entry and channel mix
- Conservative eligibility and limits
- Initial pricing & structure testing
- Monitor affordability and remittance
- Early risk monitoring & intervention
- Objective: Prove the product, learn safely, protect downside

YEAR 3 Segment, Refine & Optimize

- Reallocate acquisition to what works
- Refine pricing, terms & remittance
- Compare vintages, cohorts & segments
- Optimize concentrations & capital use
- Strengthen renewals & relationships
- Governed champion / challenger strategy comparison
- Objective: Differentiate the strategy, allocate toward what works

YEAR 5+ Adaptive Portfolio & Enterprise Learning

- Dynamic channel & acquisition strategy
- Advanced pricing & lifecycle management
- Enterprise stress & capital allocation
- Optimization across segments & objectives
- Cross-cycle learning & predictive insights
- Enterprise what-if strategy laboratory
- Objective: Turn accumulated evidence into compounding portfolio intelligence
