

Module 2 Governed Decisioning, Operations, Portfolio & G3 Acceptance Lineage

Accepted stage chain, decisioning contracts, validation controls, deterministic identities, and G3 assurance

Every output is governed. Every decision is reproducible. Every contract is enforceable.

STATUS (as of 2026-08-13)

✓

MODULE 2
COMPLETE & ACCEPTED

M2.1 – M2.12 Accepted

G3 Certification Achieved

MODULE 2 PROGRAM PHASES

1. OFFERING & STRATEGY SETUP		2. DECISIONING & PRICING		3. EXECUTION & ACTIVATION		4. SERVICING & MONITORING		5. PORTFOLIO ANALYTICS		6. STRATEGY SIMULATION		7. CERTIFICATION & G3 CONTRACT											
M2.1	ELIGIBILITY, POLICY GATES & DECISION ROUTING	M2.2	PRICING, STRUCTURE & COUNTEROFFER	M2.3	FINAL OFFER & DECISION AUTHORIZATION	M2.4	BOOKING, FUNDING & PORTFOLIO ACTIVATION	M2.5	DAILY REMITTANCE, EXPOSURE & PORTFOLIO MONITORING	M2.6	EARLY WARNING, INTERVENTION & SERVICING STRATEGY	M2.7	OPERATIONAL ACTIVATION & ACCOUNT SETUP	M2.8	SERVICING EXECUTION, PAYMENT & LIFECYCLE CONTROL	M2.9	PAYMENT RECONCILIATION & ACCOUNT STATE CERTIFICATION	M2.10	PORTFOLIO PERFORMANCE, KPI & SERVICING ANALYTICS	M2.11	PORTFOLIO OPTIMIZATION & STRATEGY SIMULATION	M2.12 — Enterprise Portfolio Certification & G3 Contract	
	Define eligibility rules and policy gates, route applications to decision paths.		Evaluate pricing, structure terms, and construct counteroffer alternatives.		Select final offer, authorize decision, and confirm decision rationale.		Simulate booking/funding and activate portfolio accounts.		Monitor daily remittances, exposures, and portfolio monitoring metrics.		Detect early warning signals and define intervention and servicing strategies.		Perform operational setup and enable accounts for servicing execution.		Simulate servicing, payment, and lifecycle-control processes.		Reconcile payments and certify account states and balances.		Produce portfolio KPIs, performance analytics, and servicing insights.		Simulate strategies, optimize decisions, and evaluate portfolio scenarios.		Certify portfolio results, publish G3 consumption contract and evidence for enterprise use.

EVIDENCE & DATA FLOW (SOURCE → TRANSFORM → OUTPUT)

Applications (M1) & Reference Data • Applications (Latest) • Merchant & Cash-Flow Features • Risk & Economics • Unit Economics • Scenario (Latest) M2_G2_CONSUMPTION, BUNDLE v1 (G2_M1_CONTRACT PASS)	Offerings & Policy Reference Data • Products, terms, covenants, repayment policies	Eligibility Results • Policy gate outcomes, exceptions, reason codes	Decision Alternatives • All paths, reason codes, confidence indicators	Risk & Limits Validation • Exposure, limits, concentration, capacity checks	Funding & Activation Records • Funding, disbursements, documents, activation status	Servicing & Remittance History • Remittances, holds, volatility, performance history	Intervention & Mitigation Records • Stress events, interventions, restructures, recoveries	Portfolio Analytics Outputs • KPIs, vintages, returns, risk- adjusted metrics	Simulation Results • Scenario outputs, comparisons, tradeoff curves	Optimization Results • Optimal mixes, pricing, limits, allocations	G3 Certified Enterprise Consumption • Certified outputs, contracts, lineage, G3 reporting
