Narrative Detail: Decision

Merchant 000040 | Ecommerce Digital | Digital Direct

Baseline: Approve as requested — authorized | Recession Energy: Underwriting review required

Baseline

Approved as requested under the source-owned decision rules. The requested terms are authorized in this scenario.

Recession Energy

Underwriting review required. A potentially supportable $5,000.00 structure is retained. Review remains necessary because disrupted processor continuity limits confidence in the operating evidence. This result is not an authorized offer.

A smaller offer can remain authorized
